

Dear Principal,

**Subject: 5th Orange Global Olympiad 2019-20**

Greetings from Orange Education!

We are pleased to introduce Orange Education as a true education initiative evolved to deliver learning and knowledge to young aspirants through its continuous efforts. We have specialised in implementing innovative pedagogical concepts in schools across India.

OEPL invites the students from classes 1 to 10 of your prestigious school to participate in Orange Global Olympiad (OGO) 2019-20.

**Orange Global Olympiad is based on "Bloom's Taxonomy".**

- ❖ It evaluates the 'cognitive skills' of the students and identifies the academic strengths and weaknesses.
- ❖ OGO is comprehensively designed, skill-based diagnostic exam for school students to develop their competitive spirit and encourage them to achieve higher learning goals.
- ❖ Reports eliminates practice of Rote Learning by highlighting the 'Root cause'.
- ❖ OGO helps teachers & parents to easily identify and understand student's academic performance levels.

**OGO has become the fastest growing Olympiad amongst the student community across India for classes 1-10. Making a significant mark in the world of academics, approx 5,00,000 students from 1,500 schools have participated in OGO.**

**Schedule:** The school may choose any one set of date from the options provided below to conduct the Olympiads. Each set of date has a separate question paper.

Subjects	Set 1	Set 2
Mathematics	Monday, 14 Oct, 2019	Monday, 18 Nov, 2019
